

I have lived in the Snoqualmie Valley most of my life after working 40 years in the medical field. After a career with amazing energy it has been wonderful to switch to the calmness and serenity of creating art.

My preferred style is very soft, using a pastel palette. At times the riches of color in nature has me painting the bright flowers of spring and summer.

My favorite subjects in our beautiful valley are Snoqualmie Falls, Mt Si, and the beautiful forest that surrounds us.
