

Dino Macioci

Dino Macioci (b1960) grew up in rural Ohio. He travelled the States for two years, settling in the Pacific Northwest in 1981 and eventually made his way to Snoqualmie. Most of his career has been spent as an Antique and Art Dealer. However, Covid hit, and he changed his career from Antiques and Art to his first love, making jewelry from recycled Sterling Silver. His inspiration comes from his love of texture and pattern. He often relies on the silver texture to dictate what the final objects form, be it a necklace, ring or bracelet. His works are often simple shapes which downplay the complexity of pattern. He hopes that you will enjoy his Recycled Sterling Silver pieces, as much as he did making them.

- 1981-2019 Antiques and Art dealer
