

Reflections painting by Julie Marcelia

Julie Marcelia

Nurtured for nearly her whole life by the beauty of the Pacific Northwest, artist Julie Marcelia captures the ever-changing beauty of these land and seascapes in her paintings. With a keen eye for color and a heartfelt connection to her surroundings, she translates PNW beauty into her own contemporary interpretations in her *Reflections* series on metal leaf.

Crafting a unique signature style that layers texture, reflective metal leaf, and paint, Julie creates dynamic artworks that evolve with changing light. These pieces transcend traditional boundaries, resist digital reproduction, and offer individuals a rich visual experience with multiple levels of engagement.

Whether through dancing water or the majesty of mountains, viewers are invited to connect with the larger transformative power of the creator of sea and sky: be calmed by the ocean's horizons, be grounded by the mountains' grandeur, be comforted by the persistent trickle of a little stream, and be amazed by the the rushing flow of a river.

"Life is this simple: we are living in a world that is absolutely transparent and the divine is shining through it all the time." –Thomas Merton

Julie is available for commissions. More information is available through her website.
