

Nancy Claire

After incorporating her creativity into a successful Landscape Design business for 2 decades, Nancy has recently been increasingly transitioning her direction into her first love, creating original works in acrylic portraying the PNW 'ordinary miracles' surrounding us every day.

Although the subject matter may vary from florals to landscape painting to still life objects, a special consideration for the source and direction of light drives each and every project. Her paintings begin and end with a passion for conveying that light so that the viewer truly feels it leaping from the canvas.

In the 4 years since Nancy returned to painting, she has enjoyed inclusion and awards in local shows and galleries, Western Wa. State Fair and in the December 2022 edition of Plein Air Magazine. To view more of her work, (on Facebook) search "Nancy Claire Originals in Acrylic" or email her.
